

League Backs Shaw In Race For Mayoralty

Porter's Refusal to Welcome President Roosevelt Is Recalled

Los Angeles division of the National Progressive League, non-partisan and interested only in electing able, honest public officials, has endorsed the candidacy of Supervisor Frank L. Shaw for mayor. It was announced today by Mrs. Francis J. Heney, local president of the league.

"Mr. Shaw is in step with the times. Mayor Porter is not," declared the league's statement. "Mayor Porter's childish refusal to welcome Franklin D. Roosevelt when he visited Los Angeles, and his reactionary attitude on important public questions, notably that of municipal water and power, make him, the league believes, unfit for re-election. Shaw is a progressive, competent, alert and experienced public official. He will make the sort of mayor Los Angeles needs."

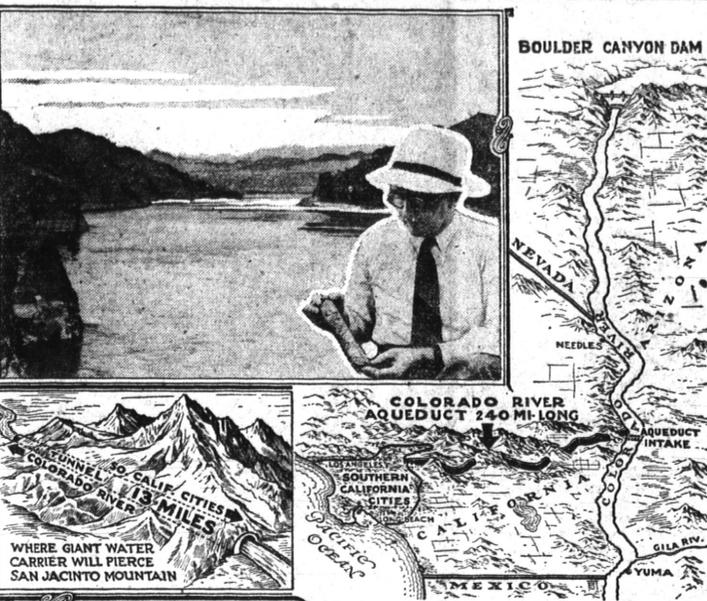

Cal Alverson Is Distributor of Frictionite

C. D. (Cal) Alverson has been named distributor for "Frictionite"—a newly patented process for re-conditioning brake linings. "Frictionite" makes old brakes better than new, and as long as there is enough lining left to contact the drums, it will work as well as if it were new and thick, Mr. Alverson claims.

"Frictionite" has a perfect "drag" wet or dry, and it energizes retardation with heat—an amazing chemical accomplishment. Instead of losing your brakes when the drums warm up, which they do very quickly, they become more effective. Frictionite surfaces old or new linings with a slip-resistant armor plate that is unbelievably opposed to friction dissipation. Even though brakes be worn to the rivets, a 10,000 mile guarantee is given by the manufacturers of Frictionite, Alverson says.

A number of local motorists, including owners of automobile fleets and the Torrance police department are enthusiastic users of Frictionite, Mr. Alverson states. Monnie & Scott, 1613 Border avenue, and Buck's Garage, 2172 Torrance boulevard, have been appointed authorized Frictionite stations.

Largest Construction Project In the United States

Where work is being launched on the largest construction project in the history of continental United States—the Colorado River Aqueduct. (Above) Aqueduct intake site on the Colorado River where one billion gallons of water daily will be diverted. (Inset) F. E. Weymouth, general manager and chief engineer of the Metropolitan Water District of Southern California, the organization which is building the big water carrier. Part of the water stored behind Boulder Canyon Dam, being constructed by the Federal Government, will be used by the aqueduct.

Misfortune Dogs Footsteps of Boyd Hudson, Tolson Truckman

For the second time in two months, Boyd Hudson, 1413 Madrid avenue, Torrance, driver for Tolson Transportation System, Inc., has been an unfortunate participant in an accident which took the life of an unwary driver who crashed into the rear of Hudson's truck.

William Francis Mancarrow, 37, of 1250 North Gower street, Hollywood, also a truck driver, is the most recent victim. Mancarrow was instantly killed at 1:35 Tuesday morning when he failed to observe a warning light placed 30 feet in the rear of Hudson's truck which had stopped on the highway near San Juan Capistrano, and drove head-on into the Tolson truck which was loaded with angle iron rods.

Hudson reported to police that his load had seemed to be shifting and he pulled off the highway as far as possible and stopped to adjust the front and rear running lights on the truck and a lantern on the rear of the load. He also placed a lighted lantern 30 feet back of the truck to give additional warning.

Mancarrow was driving for the Pacific Freight Lines. J. B. Bailey, another driver for that company, who was following Mancarrow, helped to extricate Mancarrow's body from the wreck.

An inquest to inquire into the matter was held today at San Clemente.

Hudson was involved in a similar accident on February 5 when a passenger automobile crashed into the rear of his truck, also loaded with steel, on the highway near Banning. Edward Downs, his wife and two children, and Norman Reinhardt, a passenger in the Downs car, were all instantly killed. No blame for the accident attached to the truck driver.

Ocean Frontage To Be Bought By State

Contemplating the acquisition of 4850 lineal feet of ocean frontage, 300 feet wide, located between Palisades del Rey and the El Segundo city limits, state and Los Angeles city officials met this week to prepare plans for the development of the largest beach project of its kind in Southern California.

This strip of privately owned beach land will be purchased by the state under the proposed plan, and will be maintained by Los Angeles, which already owns strips on each side of it, one 3000 feet long and the other 6400 feet long, giving the city a beach playground three miles in length, capable of accommodating twenty million persons annually.

First Lomita Twp. Justice Passes Away

William L. Reiff, California Pioneer, Succumbs to Illness

William L. Reiff, one of the oldest settlers of Lomita, died at the home of his son, Bert Reiff, 3028 230th street, on April 7, the 77th anniversary of his birth. Death was due to cerebral hemorrhage. He had been ill for several weeks.

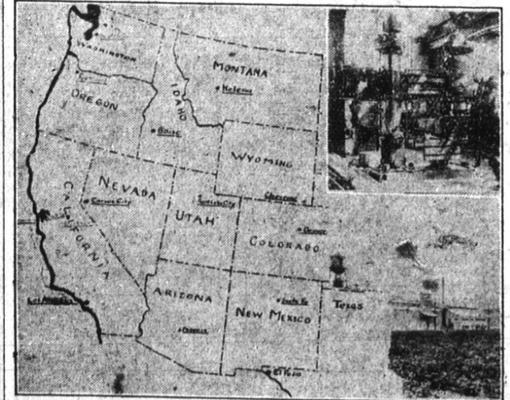

Mr. Reiff was born in Missouri, April 7, 1856, and came to California when he was a boy of 12 years. He had resided in Lomita for more than 20 years. He was the first man to hold the office of justice of the peace in this township, being appointed to serve when Gardena township was divided in 1911 to form the two townships of Gardena and Lomita. Court proceedings were held at that time in the old civic hall, now used by the Veterans of Foreign Wars as a meeting place. The building at that time stood on the site now occupied by Charles M. Smith's drug store and confectionery.

Mr. Reiff continued in office until February 1, 1913, when L. J. Hunter was elected to succeed him.

Funeral services were held Monday afternoon from Stone & Myers chapel in Torrance, Rev. B. H. Lingenfelter officiating.

Interment was made at Roosevelt Memorial Park.

MANUFACTURERS HAVE RICH TRADE FIELD

Twelve Western States Where Los Angeles County Factories Find Markets.

Aggressive selling is the remedy for business depressions and likewise is the most potent force for business development. The Los Angeles County Chamber of Commerce does not let the industrialist alone after he opens his plant in Los Angeles County. They begin immediately to help him sell his merchandise in the logical markets in the twelve western states. Millions of dollars worth of locally manufactured goods have been sold in this western territory through the activities of the Domestic Trade Department.

The attention of producers in the other western states is called to the fact that Los Angeles and Southern California are their biggest markets to whom they sell their agriculture and other products, and therefore they have a right in turn to expect that people east of us will buy our products. Through this work of the Domestic Trade Department a local manufacturer was able to expand his market in a manner that could not be possible for him to do by his own initiative.

The net sales of Los Angeles County manufactured products in the twelve western states amounted to \$379,558,000 in 1919 and increased in ten years to \$1,062,506,000. This was equivalent to a yearly increase of \$69,999,999 for the entire ten-year period.

Manufactured goods in Los Angeles County amount to \$1,319,000,000 of which \$925,900,000 is sold to these western states by the wholesale establishments of Los Angeles County amounting to \$1,540,821,000 of which \$836,221,000 is sold to retailers in the western states. The total distribution of goods to the retailers in these western states by the manufacturers and wholesalers of Los Angeles County amounts to \$1,762,121,000 which is approximately thirty-six per cent of the retail purchases of the twelve western states.

Lomita Woman On Jury Service

Mrs. Mary Borowski of 25218 Pennsylvania avenue, Lomita, is one of the jurors in the trial of Fred Hayes and William Dullin, charged with the murder of Mickey Emio, former boxer and asserted Chicago beer-runner, whose bullet-ridden body was found in the San Gabriel river bottom last January 17.

Trial of the case is under way in Superior Judge Robert W. Scott's court, and was expected to last throughout the week and part of next week.

NOT LOCAL MAN

Relatives of F. Russell Martin, employed at the Columbia Steel, wish to state that he is not the man referred to recently as having been arrested on a charge of disturbance of the peace at the Patton oil rig. The Russell Martin referred to in that item is a resident of Los Angeles.

Raid Uncovered Gold Hoard

BAKERSFIELD, Calif.—(U.P.)—Police raiding a Chinese residence here in a search for opium, uncovered a hoard of \$1,500 in gold coins, hidden in a stove.

Now a Mother

Eight pounds, nine ounces of future "Miss America" was recently presented to Fay Lanpher Daniels, who, in 1925, won national beauty honors as "Miss America."

House Numbering In Unincorporated Area To Continue

Authority to proceed with extending the house numbering system into all unincorporated territory in the county was given County Surveyor J. E. Rockhold this week by the board of supervisors. While most of the county has been covered in the 40 orders made in the past by the supervisors, there are small areas left some places where the surveyor now will extend numbers as they are needed for the convenience of postal authorities, public utilities and other business firms.

Considerable of the area affected is around Hawthorne and also east of the Los Angeles shoeing. The Los Angeles system is the basis.

NAMED DIRECTOR

Fred A. Simons of Lomita is listed as a director of the newly-incorporated Harbor District Voters' Alliance. Other directors are Dr. Harry Bunkers, D. C., of San Pedro; Charles F. Watson, of Wilmington; Lillian B. Neely of San Pedro, and Welburn Mayock, of Los Angeles.
